2022-2023 Goals

SLG

As a school we are determined to close achievement gaps and have students who entered at-risk or off-risk leave us on-track and proficient using the MTSS process. As building principal, my goal is to have 80% of 6th, 7th and 8th graders who entered "at high risk" on DESE early warning indicators show growth of 90% on the NWEA EOY Assessment.

Goal Duration: 1 Year

PPG

Knowing that chronic attendance was an issue last year with 6th, 7th, and 8th graders who entered "at high risk" on DESE early warning indicators, 18/49 whose attendance rate was less than 90%, that number will decrease by 50%.

Goal Duration: 1 Year

Staff Goals:

Communication

Increase NWEA scores.
