June 22, 2022

## NOTICE

### Asbestos Removal

Please be advised that the district will be performing some controlled demolition of concealed chases in restroom walls of classrooms 22A, 23A, 23B, 24A, and the Nurses Office at the Roberge Elementary School. The project is being performed under limited containment procedures as a precautionary measure by a licensed asbestos abatement contractor in order to prevent an accidental disturbance to asbestos insulation should it be encountered within the wall cavity. If asbestos is found, the containment will remain in place until legal notifications to state agencies are made and proper abatement procedures can be implemented. This project will commence on June 25, 2022 and shall be completed by June 26, 2022. In addition, the district will be removing non-friable floor tile in the classrooms and hallways at the Roberge Elementary School commencing on June 27, 2022 and shall be completed on or before July 8, 2022.

The removal project shall be completed in accordance with all applicable rules, regulations and guidelines, including the AHERA regulations. The Licensed Asbestos Abatement Company being utilized is Lesco Services Inc. and the project will be managed by EnviroVision Consultants Inc., a licensed Asbestos Safety Control Monitoring Firm.

All pertinent documents/reports will be on file in the Board of Education Business as well as in the Roberge Elementary School main office.

Should you have any questions or require additional information, please feel free to contact me at 201-358-4003.

Very truly yours,

*Kelly Ippolito*
