Guidelines for Emergency/Hardship Transfer Requests

If you are seeking a transfer due to an emergency that has arisen and/or for an unforeseen extraordinary circumstance that has occurred; thus, which may require a student to transfer schools, please complete this form. If you are new to the district and are looking to apply for an optional school, you may apply online on the [School Options web section](#) or at our MNPS Family Information Center.

If you do not have housing, please contact the MNPS homeless liaison office at 615-259-8729 to inquire more about the McKinney-Vento Homeless Act.

The guidelines below describe some of the situations in which an emergency/hardship transfer request may be considered:

- To be considered for approval, the request must be due to an extraordinary, unforeseen event, or situation which occurred between July 11, 2022 – May 25, 2023. **An extraordinary or unforeseen event/situation is defined as an event or situation that is totally unexpected and sudden, requiring a significant change in the daily life of a family.**
- The parent requesting such a transfer must **provide documentation** which verifies the extraordinary or unforeseen event or circumstance.
- Some situations which could qualify for an emergency/hardship transfer may include, but are not limited to, the following:
 - A valid and documented threat to the safety of the student which requires safety measures be taken that could include a transfer of schools. The parent/guardian is responsible for submitting documentation of the existing threat. Such documentation could include a court order, restraining order, police report, and documentation from MNPS staff of threats or threatening situations while at school, etc.
 - A sudden change of legal custody or a recently received valid power of attorney which has created a verifiable hardship.
 - A documented medical condition affecting the student which is verified by the physician who is treating the student.
 - A documented psychological condition affecting the student which is verified by the mental health professional/physician who is treating the student.
 - Documentation of a student's medical or mental health condition should answer two questions:
 - What is the nature of the student's medical/psychological condition?
 - How will attending the requested school improve or provide assistance to the student's medical/psychological condition?

Examples of situations which are NOT likely to be approved are:

- Situations which existed prior to or during the previous choice opportunities.
- Situations involving convenience instead of emergencies.
- Babysitting/child care situations unless accompanied by an extraordinary circumstance or unforeseen event or documentation that your child's current school is not able to provide the before or after care needed due to being at capacity.

Both sides of this form must be completed. An incomplete form will not be processed.

Please indicate the name of your current school and the name of your requested school below.
