

# Meet

## Ms. Erb

### About Me

I was born in Nashville, but grew up in Bozeman, Montana. I moved back to Nashville in 2015.

I became a counselor because I wanted to become the person I needed when I was going through school. My goal is to provide a safe space where each student feels genuinely heard, and to teach sustaining tools that students can carry with them into their future to help them reach their fullest potential!

### Education

I earned my Bachelor's degree in English from Southern Methodist University, and my Master's degree in Human Development Counseling from Vanderbilt University.
