***On the Cover:***

Broadmeadow Kindergarten students are learning about physical science concepts as they marvel at the solar-powered kinetic sculptures that are part of the Charlie Wyckoff Memorial Sculpture at Broadmeadow School. Charlie Wyckoff was a scientist and inventor who developed high speed photographic film; he also was a Broadmeadow PTC President and Needham School Committee member.

***Special thanks to the Needham High School Graphic Arts Department for cover art and document assembly, and to the Needham Production Center for printing.***
